TROUBLE IS SETTLED

Disputing Stockholders of the Tunnel Road Come to An Understanding.

LAWYERS PATCH A TRUCE.

Vice President Deam Threatens to Repudiate the Work of His Attorney.

The trouble among the directors of the Benton Harbor Electric railroad company has been settled.

The attorneys for the contending parties—M. L. Howell representing H. D. Deam and George W. Bridgman representing Hamilton, Hollis and Davies—held a conference in the office of Attorney Bridgman last evening and discussed the merits of the controversy. The rights of each side was given due consideration, the conference ending in Mr. Howell drawing up an agreement for the settlement of all the matters in dispute, and he signed the agreement as the authorized attorney of Mr. Deam. Mr. Bridgman signed the same document in behalf of Messrs. Hamilton, Hollis and Davies.

This now settles the unfortunate affair. Neither party to the dispute now has control of the company, but matters are put in much the same condition as they were before the litigation began. It now remains for a meeting of the board of directors to be called and begin business where it was left off several weeks ago.

The public hopes that all matters of minor difference will now be adjusted and that the road will be pushed to completion.

The settlement pleases the defendant stockholders in the recent suit but Vice President Deam is not pleased at all. He threatens to break away from the action of his attorney and push his case against the other members of the company.

"They want to get me out," he said "but I refuse to go. I will not sell my interest and I shall not buy theirs. I came here to build the road and I shall build it. They want to steal the proposition from me but the laws are queer if anything of that kind will be allowed."

Mr. Deam feels quite bitter and he will open the wound at the least provocation.

BENTON HARBOR LAWYERS.

They Win a Case in the Supreme Court.

Hammond & Hammond won a victory in the supreme court yesterday when the judgment of the circuit court of this county in the case of Parks vs Kerstetter was reversed. The case involves replevin proceedings brought in the circuit court by Parks to recover possession of seven head of horses which broke into Kerstetter's fields and did some damage.

Kerstetter asked \$3.50 apiece for the injury he had suffered from the horses and Parks refused to pay him more than \$1 per head. The replevin suit was begun and when tried the court directed the jury to find for Parks on the ground that Kerstetter had not served a written notice upon Parks that his horses were astray. The counsel for Kerstetter held that he had orally notified Parks and that was all the law required and the supreme court concurred in this opinion. James O'Hara represented Parks.

THIEVES AT BARODA.

They Enter Two Stores and Steal a Horse.

Two general stores at Baroda, owned respectively by J. N. Chilson and W. E. Hogue, were burglarized last night and a horse, the property of George A. Brown, was stolen from its stall one and one-half miles west of Baroda.

Sheriff Ferguson and Prosecutor Valentine visited Baroda this morning. They found that \$2 in currency, three revolvers, two or three pairs of shoes, two telescopes and some clothing had been removed from Chilson's store. The burglars entered through a window in the rear of the building.

At Hogue's place the thieves, after breaking into the warehouse in the rear abandoned efforts to reach the interior of the store.

The stolen horse was found this morning near Bridgman. It is supposed that after securing their booty the marauders took the horse to make escape easier. Farmer Hendricks, living near the Brown home, saw a man pass his house at 3 o'clock this morning leading a horse with a packet on its back.

To George Brown, city tapper, there is a peculiar fascination in the office of Chief of Police Sterns in the city hall. Every morning George pushes his woolly head through the door of the office and complains to Chief Sterns of dreadful pains in his stomach. "Help yourself, George," says the chief and George walks to the chief's desk and takes down a bottle containing an amber colored liquid, four or five bottles of which stand in a row on the desk. They were taken from the store of George Hendricks, who was arrested last night.

THE WEATHER.

Local thunder showers tonight and tomorrow. Cloudy tomorrow.

A BIG THING.

Car Ferry Between This City and Manitowoc, Wis.

Benton Harbor will have a car ferry line to Manitowoc, Wis., before the summer is over.

The Wisconsin and Michigan car ferry line, which has been operating between South Chicago and Peshtigo, Wis., has passed into the hands of the Big Four system, the Cleveland, Cincinnati, Chicago and St. Louis railroad. This will make an entire change in the affairs of the Wisconsin and Michigan Ferry line, of which J. J. Coleman, formerly of the St. Paul railroad in Milwaukee, is the general manager. The intention of the Big Four is to form a lake connection between Benton Harbor, where it maintains extensive rail terminals, and Manitowoc, and the absorbed car ferry line will be used for that purpose, the Big Four operating it in connection with the Wisconsin Central and Northwestern lines. The transfer will take place about July 1, when all ferry-boats owned by the line will be diverted from their present run between South Chicago and Peshtigo to Benton Harbor and Manitowoc, thus forming for the Northwestern a freight outlet to the eastern seaboard and the south-east.

COL. BEAN MUST PAY

Supreme Court Has Affirmed the Decision in the Case of George Bush.

COMPANY MUST PAY \$800.

A Victory For Attorneys Gore & Harvey as Well as For George Bush.

The supreme court has affirmed the decision of the circuit court of Berrien county in the case of Bush vs the St. Joseph & Benton Harbor street railway company, which gave Bush a judgement of \$800 against the street railway company.

Mr. Bush was run into by a street car while driving an ice wagon for the Union ice and coal company and was injured. The case was tried in the circuit court, Gore & Harvey representing the case of Bush. A verdict of \$800 was secured. The street railway company appealed the case and it was argued two weeks ago before the supreme court by V. M. Gore for Bush and M. L. Howell for the railway company.

A copy of the supreme court decision has not yet reached this city.

The company must now pay the \$800 judgment or have the new and powerful "A. T. & G. W." motor tied up and other motors likewise.

IN THE CRIMINAL COURTS.

Three Violators of the "Bike" Ordinance Arrested.

Three offenders of the law that requires cyclists wheeling over Benton Harbor's avenues to carry lanterns, appeared before Justice Cady this morning and paid fines of \$1 each and costs in each case of \$2.45, making a total of \$3.45, the price of a standard bicycle lamp. The men who thought Chief Sterns was jesting when he issued the edict that wheelmen without lanterns would be arrested Monday night were Jacob Scherer, Bird Wheaton and Roy Herr. They all paid their fines and costs and worse than that they have all day endured the chaffing of their friends. But Mr. Wheaton said, "It's no joke." He was badly shocked by the joking announcement of the court that he guessed he would assess him \$10. Wheaton looked serious and stammered, "It isn't as tho' I didn't have the money." There are two more violators who will appear before Justice Cady tonight.

John Schultz is serving a sentence of 35 days in the county jail as punishment for being intoxicated. He was sent up from Justice St. Clair's court today.

John Kelley and George Thornton were convicted of larceny in Justice Baldrey's court this morning and were sentenced to 90 days in the county jail.

James Brennan, demented, was taken to the county poor farm today by Supervisor Jones. He had just completed a sentence of 30 days in the county jail for being drunk and disorderly.

Neal Goines, the colored lad who was arrested for stealing brass and copper fixtures from various boats, was sentenced to the Industrial school at Adrian by Justice Cady this morning until he is 17 years of age. Goines is now 14.

THE EVENING NEWS.

SECOND YEAR—NO. 539.

BENTON HARBOR, MICH., TUESDAY, JUNE 29, 1897.

ONE CENT.

THEY WILL SUFFER.

Taxpayers Will Feel the Effects of the Defeat of the Bonding Proposition.

SAYS ST. JOE SCHOOL TRUSTEE

Rent of Rooms Will Cost More Than the Amount of Interest on Bonds.

"I regard the defeat of the proposition to bond St. Joseph to raise \$8,000 for the construction of a new school building as the most lamentable disgrace that ever befell the city," said a member of the St. Joseph board of education to a NEWS representative yesterday.

"We felt confident that the question would carry. We had taken pains to place the matter before the taxpayers in an intelligent light and expected that they had confidence in the opinion of the board that a new building was necessary and would universally favor the proposition."

"No, we did not overstep our authority when we purchased a site for the new building. Section 12 of the school law says that 'the board shall provide a site.' It does not require that we shall submit the purchase of such property to a vote of the taxpayers, and if the case is tested it will be shown that we have confined ourselves to the latitude the law prescribes."

"What will we do? That is easily answered. We have a meeting next Monday night at which time a discussion of the condition will ensue and it will be decided to lease at least four rooms for school purpose next year. These rooms, I predict, will cost considerable more than the interest on the \$8,000 bonds as contemplated would amount to, but the property holders have brought about this condition and they must grin and bear it."

"Additional room was needed last year, but the condition of the city's finances impressed the board that the expense should be delayed at least a year. Last year witnessed the wiping out of the railroad bond tax indebtedness and we considered that the importance of more room together with the expenses of the city reduced by the payment of the bond tax I have referred to would enlist the efforts of every right-minded citizen in the cause. There is some objection to our paying Prof. Loomis \$1,600 per year to superintend our schools. It is held by some that we could get a man to fill his position for \$1,200. Perhaps we could, but the board is inclined to maintain the highest standard of excellence in the city schools and Mr. Loomis is equipped to meet our demands."

"The necessity for more room should be apparent. We can no longer utilize the basement of the Main street building and some way must be devised to relieve the Wayne and Main street buildings of the increasing overflow of pupils. It was only a short time ago that the city council fell over itself in a scramble to execute a contract obligating the city to pay \$20,000 for five years' street lighting and the taxpayers entered no protest, but when it was desired to vote \$8,000 bonds to improve our educational facilities there was a howl."

The board of education has no fear of being proceeded against with a view of compelling its members to reimburse the city in the sum of \$1,500, the amount expended for the school building site. The law permits the board to employ an attorney when necessary at the expense of the city and where the money will be obtained to prosecute the case is an unanswerable query. The council will not make an appropriation for such a purpose because the majority of the members of that body favor the erection of a school building."

CAN'T CROSS BIG 4.

The Railroad Commission So Decides Temporarily.

The state commission on railroad crossings, which yesterday conferred with the officials of the Big Four, the West Michigan and Benton Harbor, Milwaukee & Columbus relative to granting permission to the latter road to cross the tracks of the former two at this place, decided adversely.

The decision, however, is not unalterable. The commission held that it had not the power to approve of crossings where it necessitated a change in the existing situation as in the case in question where the Big Four would be compelled to remove a part of its tracks. It is desired by the commission to further consider the matter and it requested of M. A. Howell, counsel for the B. H., M. & C., that he appear before the commission as soon as convenient and present his authority for maintaining that the commission had jurisdiction to grant the desired permission.

THE CARDS ARE OUT.

For the Fourth of July Wedding to Occur in This City Next Saturday.

BRIDE A CHARMING WIDOW.

She Loves Henry Frary and Doesn't Care a Rap Who Knows It.

Yesterday afternoon Mrs. Madeline Shochness of Stevensville, a captivating widow on the youthful side of 40, visited the hardware store of Chester C. Sweet. She looked at every stove in the store and especially fond was the expression of her eyes as she surveyed the ranges. Courage was finally mustered to ask if any couple had secured the opportunity to get a \$50 range for being married in public at the celebration next Saturday.

"Not yet," said Mr. Sweet. "Here is the range that goes to the bride. Now, why don't you nail this offer?"

"That's what I'm here for," said the business woman from Stevensville. "Henry has been wanting to get married for months but I've been putting him off and now I'm going to get the best range in your store for the waiting."

No time was lost to clinch the opportunity. Mrs. Shochness accompanied Mr. Sweet to St. Joseph and the county clerk agreeable to his promise issued a license without money and without price to Henry Frary, 43, Stevensville, and Mrs. Madeline Shochness, 39, to marry. The license is now on exhibition at Mr. Sweet's store.

Besides the range, the ice cream, the knives and forks, the sick and accident policies already offered, J. N. Poundstone will photograph Mr. and Mrs. Frary and present each with a photograph of the other.

Rupture Cured.

BERRIEN CENTER, Mich., May 5, 1897.

To my Friends and Acquaintances:

I wish to say that about two years ago I lifted on a barrel of sugar and over bone myself and caused a rupture, which became very bad. I consulted several doctors, some at Kalamazoo, Niles and Sodus. All seemed to vary as to conditions, and I got little or no satisfaction and had become almost discouraged. Last fall my wife's father, P. E. O'Brien, commenced a course of treatment with Drs. B. S. & Co., and from their success with him I was persuaded by his family and my wife to call on Dr. Booth and get his opinion. I did so and he seemed to know what he was talking about, and gave me more satisfaction than all others—in fact the only doctor that I had confidence in. He told me it would require an operation to cure me. The doctors at Kalamazoo said it would require an operation and wanted \$600 in all. I could not think of that. Dr. Booth told me that the full cost of treatment and operation would be only \$100. He did the work and I am O. K. now thanks to the firm of Drs. B. S. & Co. I advise all in need of medical aid to call on them.

TUESDAY, JUNE 29, 1897.

MR. DEAM AND HIS ROAD.
 The public sentiment of Benton Harbor has been with Mr. Deam of the tunnel scheme from the beginning. When his early promises about the road did not materialize the explanation about the death of Mr. Waldron was accepted in good faith and every allowance made. When the laborers on the early survey were runpaid, when there was threatened a strike on the dock of the Minnie M. for broken promises the people generally cautioned patience. When Mr. Deam wanted a new franchise it was gladly given. Now Mr. Deam says he would not buy the interests of his associates or sell his own in the road. He would make no sacrifice of his own personal notions to see the labor on the grade speedily paid. It looks as though he was going to deal selfishly with the interests of the public. If he does, he can expect that the public will deal only selfishly with him in the future. It is Mr. Deam's duty to compromise until at least the labor debts are paid. It is cheaper to buy a bicycle lamp than to monkey with the police department.

Look Before You Leap...
 Is an old maxim and a good one. It will also hold good in buying Dry Goods. Look before you buy. Do not believe all you see in the papers about prices, clearing out sales, etc. We are all here to make money, at least a living, and a merchant is not going to sell you good, staple goods for less than first cost without getting a double profit on something else. Often we all have goods in our stores which we don't want and these goods we are willing to sell for less than first cost. This is the case with the clothing I have left. I will sell anything I have at 65 to 75 per cent on the dollar from first cost. I want the money and do not want the clothing. I can buy dry goods with money and sell them at a profit. If in need of clothing come and see me. I can please you.

CHIEF Sterns thinks that the city in the inauguration of the stone pile, has reached a solution of the bothersome tramp problem. He says reports from citizens on the outskirts of depredations by tramps are remarkably infrequent and have been so since the stone pile was instituted. The tramps are fewer in Benton Harbor by a 100 now than they were a month ago. The tramps are instinctively horror stricken at the mere thought of a stone pile these blistering summer days.

TRUSTS

Senate Finds It Difficult to Pass Them Off.

HOAR SAYS THEY ARE A MENACE.

But Doesn't Seem Clear as to How to Suppress Them—Allen and Caffery Think the Sugar Trust Easy with the Present Law, and the Nebraska Man Intimates That the Executive Is Not Up to the Standard of Efficiency.

Washington, June 29.—The Senate made good progress on the tariff bill yesterday, disposing of the paragraphs relating to hides, which have been the source of much controversy. As finally agreed on the duty on hides is placed at 20 per cent ad valorem, in place of 1 1/2 cents per pound, as originally reported by the finance committee. The discussion was protracted, drifting into a general debate on trusts, and from that back to the sugar trust. Smith of New Jersey spoke at length against the duty on hides, while Allen of Nebraska supported the duty. The new paragraph was agreed to—39 to 20—one democrat, Rawlins of Utah and several Populists and silver Republicans voting with the Republicans in the affirmative. The incidental debate on trusts led to severe arraignment of the sugar trust by Caffery and Lindsay, and a general discussion of means to deal with trusts by Hoar. Among other paragraphs disposed of during the day were all those relating to gloves, a substitute for the paragraph on live animals, iron ore and stained glass windows.

Smith Digresses to Cuba.
While the debate on hides was proceeding Smith got on to Cuba, and spoke of "the remarkable fact" that a resolution recognizing the belligerency of the Cubans had been passed by the senate and sent to that catafalque or tomb, the house of representatives, to be buried by a Republican house, a Republican speaker, at the dictation of a Republican president. It was an insult to the American people, which they would rebuke at the polls next November.

Vest reviewed the legislation on leather and hides and presented a letter written by James G. Blaine to McKinley when the McKinley bill was being framed, protesting against a duty on hides as a slap in the face of the south Americans, and as likely to legislate the Republican party out of power.

Vest Brings Up the Beef Trust.
The senator argued that a duty on hides could not advance the price of cattle in the west, as hides were only a bi-product of the cattle; and moreover, the price of cattle was fixed absolutely, with the power to put the price up or down, by the big four combination at Chicago. The senator recalled the circumstances of the senatorial inquiry into the beef trust in which he participated. When Vest spoke of oppressive action by Armour to compel butchers to use his dressed beef Allen of Nebraska remarked that the evidence seemed sufficient for an indictment and why, then, was not something done toward prosecution? This developed a warm controversy between Hoar and Allen as to the right of federal prosecution for an offense wholly within state lines, which at times became rather personal.

Stewart Comments on the Money Trust.
A reference in Smith's remarks to trusts led Stewart to make an extended arraignment of the money trust, which he asserted was the worst of all trusts. Stewart argued also that if there was to be a protective tariff bill all sections should share in the advantages it gave. Incidentally Stewart paid a tribute to the Chicago platform and said he supported it throughout. Allen said that while not an advocate of a general protective system, yet he held to the view that if there was to be such a bill every section should share in the benefits it gave. He spoke of the benefits of a hide duty to the farmers and in particular of the extent of the industry in Nebraska.

HOW TO STRIKE THE TRUSTS.
Hoar thinks they menace the Republic—Allen's Vigorous Remarks.

The discussion branched off to the prosecution of trusts, in which Allen and Hoar discussed the law. Hoar stated that he thought it likely an amendment relating to trusts would be offered in connection with the present bill, tending to perfect the provisions on that subject in the tariff bill of 1894. Such an amendment had been prepared by Pettus of Alabama, and Hoar said he expected to vote for it when it came up. Hoar said that while the question of trusts could be dealt with to some extent by striking at their imports, as in the law of 1894, yet he feared that the most serious phases of the legal meaning of the word "trust" and showed the difficulties in making the sugar trust and Standard Oil trust amenable to federal law. He regarded these monopolies as a menace to the republic, and was hopeful that some means might be found to check them.

Lindsay said that in the case of a confessed monopoly, such as the sugar trust, one effective means of dealing with it would be to extend it no further benefits from tariff legislation. When the point was reached in a tariff bill where sugar was to be dealt with, then it should be so shaped as not to be in the benefit of the trust.

Hoar replied that the answer to this was that the policy seemed to be established that revenue was to be raised on refined sugar, and it was further desired that the business of refining sugar shall be done in this country rather than abroad. A great foreign government was about the biggest trust that could menace the trade of the United States, Hoar asserted. He hoped that some effective remedy would be found instead of going on the theory that because a jackal or a fox preys on our commerce it should be given to a foreign wolf or lion.

Caffery argued that the sugar trust was within the operation of the anti-trust law, and he felt that it was time the attention of the attorney general and the United States district attorneys was called to the frequent and flagrant violations of the law by the sugar trust. The senator declared that the sugar trust was the most arrogant and inquisitorial trust in the world.

Allen, assuming that the tariff bill would be passed, said that the executive was not up to the standard of efficiency.

Allen, assuming that the tariff bill would be passed, said that the executive was not up to the standard of efficiency.

The session of the house yesterday lasted only long enough to call the roll on Dingley's motion to adjourn. Dingley saying he was not aware of any matters claiming the attention of the house. Bailey challenged that statement with the observation that the bankruptcy bill and the Cuban belligerency resolution were unacted upon. A rising vote was against adjournment by a majority of one, whereupon Dingley demanded the ayes and nays and won—97 to 83.7 July 10 was set apart for eulogies on the late W. S. Holman.

HOW ABOUT THE ANNEXES?
Doesn't Seem To Be Any Provision in This Scheme for Him.

Washington, June 29.—Crumpacker of Indiana yesterday introduced in the house a resolution for a constitutional amendment providing that hereafter no non-contiguous territory shall be annexed to the United States except in pursuance of a treaty negotiated by the president, concurred in by two-thirds of each house of congress and ratified by the legislatures of three-fourths of the states, and no contiguous territory except by treaty concurred in by two-thirds of each house, the vote on the question of concurrence not to be taken in the house of representatives until two years have elapsed from the time of taking the vote in the senate.

Officers Holders to Pay the Freight.
Washington, June 29.—Shafroth of Colorado introduced in the house yesterday a novel measure entitled a bill "to encourage the economical administration of the government." It provides that "in order that such officer and employee of the United States shall have a direct interest in the economical administration of the government the secretary of the treasury is directed for each month, if the expenditures of the government are greater than the receipts, to deduct and retain in the treasury from each salary in excess of \$200 per month 20 per cent. thereof, and from each salary under such amount 10 per cent. thereof."

Matter of House Committees.
Washington, June 29.—Speaker Reed said yesterday that he had the matter of the appointment of the committees under consideration, and that unless something now unforeseen occurred to change his present inclination he would prepare the list and submit them prior to the final adjournment.

Persians Maltreat the Jews.
Washington, June 29.—According to advices just received at the state department from the United States minister to Persia, the Mohammedans in Teheran, Persia, recently invaded the Jewish quarters of that city and inflicted the most shocking maltreatment upon the residents.

Will Evolve an Anti-Trust Amendment.
Washington, June 29.—The Republican members of the senate committee on judiciary will meet today to consider the various forms presented for an anti-trust amendment to the tariff bill. There are a dozen anti-trust amendments in print and others have been suggested.

Reed Will Not Be at Detroit.
Washington, June 29.—Speaker Reed has decided in view of the proximity of the return of the tariff bill from the senate that he will be unable to attend the meeting of the Republican clubs in Detroit July 13, where it was expected he would make an address.

Nominated for Official Position.
Washington, June 29.—The president yesterday sent the following nominations to the senate: Soren Listoe, Minnesota, consul at Rotterdam, Netherlands; Henry Fink, Wisconsin, collector of internal revenue for the First district of Wisconsin.

Lynched Italians Valued at \$6,000.
Washington, June 29.—Senator Davis yesterday reported from the committee on foreign relations an amendment to the general deficiency bill to pay \$6,000 to the families of the three Italians lynched at New Orleans.

Pettigrew Continues to Improve.
Washington, June 29.—The condition of Senator Pettigrew, who was taken ill in the senate Saturday, continues to improve. His physician believes he will be able to resume his senatorial duties in a few days.

WESTERN COLONY ABANDONED.
Report That Debs Has Changed His Method of Operations.

Milwaukee, June 29.—Victor S. Berger, editor of a socialist organ, gave out a statement last night on his return from a conference with Eugene V. Debs. He says the scheme to plant a socialist colony in the west has been abandoned, and to take its place there will be a small migration of unemployed men to the state of Washington. They will look for homes there the same as other settlers, and the expense of transporting them will be paid through a per capita tax of 15 cents a month on members of the Social Democracy, Debs' new party. Debs will remain in the east and he and his associates will devote themselves to the cause of socialism through this political party and the ballot.

Joint Conference Was a Failure.
St. Louis, June 29.—The joint conference between the railroad commissions of Missouri and Illinois for the purpose of establishing uniform grain grades between the two states was a failure. The Missouri commissioners held out for the grades they established and the Illinois commissioners declined to yield their own grades.

Emperor Is Going To Be Supreme.
Chicago, June 29.—A dispatch from Berlin detailing expected changes in the German ministry, says: Altogether Germany appears to be in the throes of a far-reaching crisis, of which it is impossible to see the outcome beyond the fact that the emperor is more than ever taking the reins into his own control.

ORDER WAS HOLD UP YOUR HANDS.

And One Man Who Was a Little Slow Lost a Part of His Ear—Purse Quickly in Pursuit and One of the Bandits Captured After a Running Fight—Others Closely Pursued with Few Chances of Escape—Other Criminal Matters.

Deadwood, S. D., June 23.—Four masked men yesterday morning made a desperate attempt to rob the Butte County bank at Belle Fourche. Entering the bank with revolvers drawn they ordered the customers present and bank officials to hold up their hands. A little hesitancy on the part of Cashier Marble drew a shot from the gun of one of the robbers which clipped off a large portion of the cashier's right ear and enforced compliance with the command. The safe and counters were relieved of the cash they contained and the robbers, mounting their horses which had been conveniently stationed, rode away. One of the Robbers Captured.

An alarm was immediately given, and in a few minutes a well mounted and armed posse was in pursuit of the robbers. Within a few miles from town the posse came up with the fugitives and a running fight ensued which resulted in one of the robbers throwing up his hands and surrendering. The others being better mounted, continued their flight, but are now being closely pursued and have very few chances of escaping. The day was favorable for a raid on the bank, as the weather was such that it kept the town people off the streets and the robbers had little opposition and had quite a start before the alarm could be given.

Made a Target of Giles.

Later.—There were five men in the party who made the assault on the bank. An unusual display of fire arms on their part attracted the attention to A. Giles, a merchant, who surmised that something was wrong and gave an alarm. Giles was made the target for a volley from the robbers' pistols, but escaped uninjured. Pursuit was prompt. In the fight that followed Walter Gay, of Gay & Sons, was shot through the cheek, receiving a painful wound. The outlaws fired right and left while riding out of the town, but no one else was wounded. Thomas Day, the captured robber, was overhauled half a mile from town, and is now in jail at Deadwood. He is a stranger in the vicinity. The rest of the gang are now at bay at the Three V ranch, a few miles from Belle Fourche, where they will likely be captured or killed. It transpires that less than \$75 was taken from the bank, the cashier, Arthur Marble, having slammed shut and locked the doors of the vault at the entrance of the robbers. He was fired at three times, only one shot taking effect. He tried to return the fire, but his pistol failed him.

BLOODY TRAGEDY AT CHICAGO.

Microant Starts in to Kill a Whole Family and Himself.

Chicago, June 23.—William H. Copp, foreman of the glazing department of the Pullman company, armed himself yesterday with a razor and revolver and went to the house of his wife's parents, Dr. and Mrs. Andrew C. Rankin, with the intention of murdering them, his wife, and his wife's sister, who were living with them. After locking the doors he fired a shot at the doctor, but missed. The doctor grappled with Copp, who beat him fearfully over the head with the razor. Copp then drew the razor across the doctor's throat and the hands of both men were nearly cut to pieces as they fought for the weapon. The doctor then managed to gain his revolver, which was laying on the mantle-piece, and shot Copp through the side.

During the fight between the men Mrs. Rankin was struck in the head by Copp and severely cut and her daughter, Mrs. Hermes, was pounded about the face and one of her eyes destroyed. Mrs. Hermes managed to reach the street and summon help. The members of a fire engine company headed by Fred Rankin, brother-in-law of Copp, broke in and overpowered the would-be murderer. Dr. Rankin is 70 years old and it is thought will die from the injuries he received.

JUBILEE DOWN IN KENTUCKY.

Some Best Citizens Indulge in a Rather Fatal "Gun Play."

Lancaster, Ky., June 23.—Yesterday afternoon, on the public square, Marion Sebastian was shot dead, five balls having penetrated his body—three lodging in his head, one in his right lung and one in his leg. A coroner's jury heard testimony immediately, and its verdict was that S. D. and Jack Turner and an unknown party fired the murderous shots; also that S. D. Turner, who is brother-in-law to Sebastian, was principal in the killing, and fired the first shot. S. D. Turner had married the daughter J. P. Nave, a rich farmer. Nave's present wife is Sebastian's sister. At Nave's suggestion his daughter, the wife of Turner—with whom she lived unhappily—deserted him. A suit by Turner against his father-in-law for \$10,000 damages for alienating his wife's affections resulted in giving Turner \$250. Sebastian, a brother-in-law of both parties to the suit, was a witness and his testimony favored Nave. In the fight yesterday Turner fired first. He and Sebastian held each other by the left hand while firing with the free right hand. Turner was not hit. It is believed his brother Jack fired two shots at Sebastian. All were well-to-do farmers and this tragedy is likely to start a bad family feud.

Mutilated Body Not Identified.

New York, June 23.—The mutilated body that was found in two sections, one in East river on Saturday, the other in the northern part of the city Sunday, has not been identified. The coroner's physician, O'Hanlon, said that whoever had cut up the body, while he might not have been a surgeon, must have known something of human anatomy, as he had cut the body in parts where saw and knife would meet with least resistance.

at the time of the shooting, and that the latter's friends took up the fight and the shooting became general. An unknown man was killed and about twenty were wounded, some fatally, it is believed.

Young Woman Abducted from Her Room.

Los Angeles, Cal., June 23.—The little town of Downey, in the southern part of the county, is terribly excited over a case of abduction Sunday night. Miss Maine, the daughter of respectable, well-to-do people, was chloroformed and taken from her bed room in her night dress by an unknown man who entered through a window. At daylight next morning the young woman was found wandering in a dazed condition several miles from home. She has been unable as yet to give a clear description of her strange abductor.

Judge Lynch Uses Dynamite.

Franklin, Ky., June 23.—George Dinning, a negro who killed Jodie Conn, a young farmer, last January, was brought here yesterday for trial with a guard of two militia companies from Franklin. From a squad of three men last night a dynamite bomb was hurled at the jail. It exploded without doing great damage. Lieutenant F. L. Gordon, of the Franklin militia, fired his revolver at the squad and thinks he hit one man.

Sunday Entertainment in Mississippi.

Aberdeen, Miss., June 23.—A negro named Parry Gilliam was forcibly taken from the Monroe county jail late Sunday night, carried five miles from town and hung to a tree in the middle of the big road where his body was found early yesterday morning swinging a lifeless corpse. He was charged with having robbed a white woman at Okolona Saturday afternoon and attempted a criminal assault upon her.

EX-GOV. BOIES AND FREE SILVER.

Declares He Now Holds the Position He Has Always Held.

Waterloo, Ia., June 23.—The publication of Ex-Governor Boies' letter to Colonel Fox, of Des Moines, has caused him to be flooded with queries concerning the grounds he has taken and for further explanation in regard to his meaning. When he was seen at his home he stated that his letter was no departure from the position he has always maintained: "I have renounced free silver at the ratio of 16 to 1," he said, "but no more so than I always have. My position is unchanged and is in accord with the plank which I sought to have introduced in our state platform at the Dubuque convention last year, but which the radical silver men objected to then and do now."

What the ex-governor says in his letter to Colonel Fox is this: "For one, I do not believe it possible to succeed upon a platform that demands the unqualified free coinage of silver at the ratio of 16 to 1 with gold. We have fought that battle and it is lost. We can never fight it over under circumstances more favorable to ourselves. If we hope to succeed we must abandon this extreme demand."

Taxpayers Will Feel the Effects of the Defeat of the Bonding Proposition.

MAYST. JOE SCHOOL TRUSTEE

Rent of Rooms Will Cost More Than the Amount of Interest on Bonds.

"I regard the defeat of the proposition to bond St. Joseph to raise \$8,000 for the construction of a new school building as the most lamentable disaster that ever befell the city," said a member of the St. Joseph board of education to a NEWS representative yesterday.

"We felt confident that the question would carry. We had taken pains to place the matter before the taxpayers in an intelligent light and expected that they had confidence in the opinion of the board that a new building was necessary and would universally favor the proposition.

"No, we did not overstep our authority when we purchased a site for the new building. Section 12 of the school law says that 'the board shall provide a site.' It does not require that we shall submit the purchase of such property to a vote of the taxpayers, and if the case is tested it will be shown that we have confined ourselves to the attitude the law prescribes.

"What will we do? That is easily answered. We have a meeting next Monday night at which time a discussion of the condition will ensue and it will be decided to lease at least four rooms for school purpose next year. These rooms, I predict, will cost considerable more than the interest on the \$8,000 bonds as contemplated would amount to, but the property holders have brought about this condition and say my grin and bear it.

"Additional room was needed last year, and the condition of the city's school buildings pressed the board that the school should be delayed at least a year. Last year witnessed the wiping of the railroad bond tax indebtedness and we considered that the importance of more room together with the expenses of the city reduced by the payment of the bond tax I have referred to would enlist the efforts of every right-minded citizen in the cause. There is some objection to our paying Prof. Loomis \$1,600 per year to superintend our schools. It is held by some that we could get a man to fill his position for \$1,200. Perhaps we could, but the board is inclined to maintain the highest standard of excellence in the city schools and Mr. Loomis is equipped to meet our demands.

"The necessity for more room should be apparent. We can no longer utilize the basement of the Main street building and some way must be devised to relieve the Wayne and Main street buildings of the increasing overflow of pupils. It was only a short time ago that the city council fell over itself in a scramble to execute a contract obligating the city to pay \$20,000 for five years' street lighting and the taxpayers entered no protest, but when it was decided to vote \$8,000 bonds to improve our educational facilities there was a howl."

The board of education has no fear of being proceeded against with a view of compelling its members to reimburse the city in the sum of \$1,500, the amount expended for the school building site. The law permits the board to employ an attorney when necessary at the expense of the city and where the money will be obtained to prosecute the case is an unanswerable query. The council will not make an appropriation for such a purpose because the majority of the members of that body favor the erection of a school building.

CAN'T CROSS BIG 4.

The Railroad Commission So Decides Temporarily.

The state commission on railroad crossings, which yesterday conferred with the officials of the Big Four, the West Michigan and Benton Harbor, Milwaukee & Columbus relative to granting permission to the latter road to cross the tracks of the former two at this place, decided adversely.

The decision, however, is not unalterable. The commission held that it had not the power to approve of crossings where it necessitated a change in the existing situation as in the case in question where the Big Four would be compelled to remove a part of its tracks. It is desired by the commission to further consider the matter and it requested of M. A. Howell, counsel for the B. H., M. & C., that he appear before the commission as soon as convenient and present his authority for maintaining that the commission had jurisdiction to grant the desired permission.

BRIDE A CHARMING WIDOW.

She Loves Henry Frary and Doesn't Care a Rap Who Knows It.

Yesterday afternoon Mrs. Madeline Shochness of Stevensville, a captivating widow on the youthful side of 40, visited the hardware store of Chester C. Sweet. She looked at every stove in the store and especially fond was the expression of her eyes as she surveyed the ranges. Courage was finally mustered to ask if any couple had secured the opportunity to get a \$50 range for being married in public at the celebration next Saturday.

"Not yet," said Mr. Sweet. "Here is the range that goes to the bride. Now, why don't you nail this offer?"

"That's what I'm here for," said the business woman from Stevensville. "Henry has been wanting to get married for months but I've been putting him off and now I'm going to get the best range in your store for the waiting."

No time was lost to cinch the opportunity. Mrs. Shochness accompanied Mr. Sweet to St. Joseph and the county clerk agreeable to his promise issued a license without money and without price to Henry Frary, 43, Stevensville, and Mrs. Madeline Shochness, 39, to marry. The license is now on exhibition at Mr. Sweet's store.

Besides the range, the ice cream, the knives and forks, the sick and accident policies already offered, J. N. Poundstone will photograph Mr. and Mrs. Frary and present each with a photograph of the other.

Rupture Cured.

BERRIEN CENTER, Mich., May 5, 1897.

To my Friends and Acquaintances:

I wish to say that about two years ago I lifted on a barrel of sugar and over bone myself and caused a rupture, which became very bad. I consulted several doctors, some at Kalamazoo, Niles and Sodus. All seemed to vary as to conditions, and I got little or no satisfaction and had become almost discouraged. Last fall my wife's father, P. E. O'Brien, commenced a course of treatment with Drs. B. S. & Co. and from their success with him I was persuaded by his family and my wife to call on Dr. Booth and get his opinion. I did so and he seemed to know what he was talking about, and gave me more satisfaction than all others—in fact the only doctor that I had confidence in. He told me it would require an operation to cure me. The doctors at Kalamazoo said it would require an operation and wanted \$600 in all. I could not think of that. Dr. Booth told me that the full cost of treatment and operation would be only \$100. He did the work and I am O. K. now thanks to the firm of Drs. B. S. & Co. I advise all in need of medical aid to call on them.

MR. DEAM AND HIS ROAD.

The public sentiment of Benton Harbor has been with Mr. Deam of the tunnel scheme from the beginning.

When his early promises about the road did not materialize the explanation about the death of Mr. Waldron was accepted in good faith and every allowance made.

When the laborers on the early survey were unpaid, when there was threatened a strike on the dock of the Minnie M. for broken promises the people generally cautioned patience.

When Mr. Deam wanted a new franchise it was gladly given.

Now Mr. Deam says he would not buy the interests of his associates or sell his own in the road. He would make no sacrifice of his own personal notions to see the labor on the grade speedily paid. It looks as though he was going to deal selfishly with the interests of the public. If he does, he can expect that the public will deal only selfishly with him in the future.

It is Mr. Deam's duty to compromise until at least the labor debts are paid.

It is cheaper to buy a bicycle lamp than to monkey with the police department.

Look Before You Leap...

Is an old maxim and a good one. It will also hold good in buying Dry Goods. Look before you buy. Do not believe all you see in the papers about prices, clearing out sales, etc. We are all here to make money, at least a living, and a merchant is not going to sell you good, staple goods for less than first cost without getting a double profit on something else. Often we all have goods in our stores which we don't want and these goods we are willing to sell for less than first cost. This is the case with the clothing I have left. I will sell anything I have at 65 to 75 per cent on the dollar from first cost. I want the money and do not want the clothing. I can buy dry goods with money and sell them at a profit. If in need of clothing come and see me. I can please you.

CHIEF Sterns thinks that the city in the inauguration of the stone pile, has reached a solution of the bothersome tramp problem. He says reports from citizens on the outskirts of depredations by tramps are remarkably infrequent and have been so since the stone pile was instituted. The tramps are fewer in Benton Harbor by a 100 now than they were a month ago. The tramps are instinctively horror stricken at the mere thought of a stone pile these blistering summer days.

THEY ARE A MENACE

...from Clear as to How to Sup-
...Allen and Caffery Think
...Trust Easy with the Present
...the Nebraska Man Intimates
...Executive Is Not Up to the
...of Efficiency.

Washington, June 29.—The Senate
...progression the tariff bill yes-
...disposing of the paragraphs re-
...to hides, which have been the
...of much controversy. As finally
...on the duty on hides is placed at
...per cent ad valorem, in place of 1 1/2
...per pound, as originally reported
...the finance committee. The discussion
...protracted, drifting into a general
...on trusts, and from that back to
...sugar trust. Smith of New Jersey
...at length against the duty on
...while Allen of Nebraska supported
...duty. The new paragraph was
...to 20 to 20—one democrat, Raw-
...of Utah and several Populists and
...Republicans voting with the Re-
...cans in the affirmative. The inci-
...debate on trusts led to severe ar-
...ment of the sugar trust by Caffery
...Lindsay, and a general discussion
...to deal with trusts by Hoar.
...other paragraphs disposed of
...the day were all those relating to
...a substitute for the paragraph
...animals, iron ore and stained
...windows.

Smith Digresses to Cuba.
While the debate on hides was pro-
...Smith got on to Cuba, and spoke
...the remarkable fact that a resolu-
...recognizing the belligerency of the
...had been passed by the senate
...and sent to that catalogue or tomb,
...house of representatives, to be
...by a Republican house, a Re-
...publican speaker, at the dictation of a
...Republican president. It was an in-
...to the American people, which they
...rebuke at the polls next Novem-
...

Vest reviewed the legislation on leather
...and hides and presented a letter written
...by James G. Blaine to McKinley when
...the McKinley bill was being framed,
...protesting against a duty on hides as a
...in the face of the south Ameri-
...cans, and as likely to legislate the Re-
...publican party out of power.

Vest Brings Up the Beef Trust.
The senator argued that a duty on
...hides could not advance the price of cat-
...in the west, as hides were only a
...product of the cattle; and moreover,
...the price of cattle was fixed absolute-
...ly, with the power to put the price up
...or down, by the big four combination at
...Chicago. The senator recalled the cir-
...cumstances of the senatorial inquiry
...into the beef trust in which he par-
...ticipated. When Vest spoke of op-
...pressive action by Armour to compel
...butchers to use his dressed beef Allen
...of Nebraska remarked that the evidence
...seemed sufficient for an indictment and
...why, then, was not something done to-
...ward prosecution? This developed a
...warm controversy between Hoar and
...Allen as to the right of federal prosecu-
...tion for an offense wholly within state
...lines, which at times became rather per-
...sonal.

Stewart Comments on the Money Trust.
A reference in Smith's remarks to
...trusts led Stewart to make an extended
...arrangement of the money trust, which
...he asserted was the worst of all trusts.
...Stewart argued also that if there was
...to be a protective tariff bill all sections
...should share in the advantages it gave.
...Incidentally Stewart paid a tribute to
...the Chicago platform and said he sup-
...ported it throughout. Allen said that
...while not an advocate of a general pro-
...tective system, yet he held to the view
...that if there was to be such a bill every
...section should share in the benefits it
...gave. He spoke of the benefits of a hide
...duty to the farmers and in particular of
...the extent of the industry in Nebraska.

HOW TO STRIKE THE TRUSTS

Hear Think They Menace the Republic—
Allen's Vigorous Remarks.

The discussion branched off to the
...prosecution of trusts, in which Allen and
...Hoar discussed the law. Hoar stated
...that he thought it likely an amendment
...relating to trusts would be offered in
...connection with the present bill, tend-
...ing to perfect the provisions on that
...subject in the tariff bill of 1894. Such
...an amendment had been prepared by
...Pettus of Alabama, and Hoar said he
...expected to vote for it when it came up.
...Hoar said that while the question of
...trusts could be dealt with to some extent
...by striking at their imports, as in the
...law of 1894, yet he feared that the most
...serious phases of the legal meaning of
...the word "trust" and showed the diffi-
...culties in making the sugar trust and
...Standard Oil trust amenable to federal
...law. He regarded these monopolies as
...a menace to the republic, and was hope-
...ful that some means might be found to
...check them.

Lindsay said that in the case of a con-
...fessed monopoly, such as the sugar
...trust, one effective means of dealing
...with it would be to extend it no further
...benefits from tariff legislation. When
...the point was reached in a tariff bill
...where sugar was to be dealt with, then
...it should be so shaped as not to be in
...the benefit of the trust.

Hoar replied that the answer to this
...was that the policy seemed to be estab-
...lished that revenue was to be raised on
...refined sugar, and it was further desired
...that the business of refining sugar shall
...be done in this country rather than
...abroad. A great foreign government
...was about the biggest trust that could
...menace the trade of the United States,
...Hoar asserted. He hoped that some ef-
...fective remedy would be found instead
...of going on the theory that because a
...cat or a fox preys on our commerce
...it should be given to a foreign wolf or
...dog.

Caffery argued that the sugar trust
...was within the operation of the anti-
...trust law, and he felt that it was time
...the attention of the attorney general
...and the United States district attorneys
...be called to the frequent and flagrant
...violations of the law by the sugar trust.
...The senator declared that the sugar trust
...was the most arrogant and iniquitous
...trust in the world.

Stewart declared that the
...sugar trust was the worst
...of all trusts, and was being
...used to the detriment of the
...country.

...the authorities have not executed them
...with seal.

The session of the house yesterday
...lasted only long enough to call the roll
...on Dingley's motion to adjourn, Dingley
...saying he was not aware of any matters
...claiming the attention of the house.
...Bailey challenged that statement with
...the observation that the bankruptcy
...bill and the Cuban belligerency
...resolution were unacted upon. A ris-
...ing vote was against adjournment by a
...majority of one, whereupon Dingley
...demanded the ayes and nays and
...won—97 to 88. July 10 was set apart
...for eulogies on the late W. S. Holman.

NOW ABOUT THE ANNEXES?

Doesn't Seem To Be Any Provision in This
Scheme for Him.

Washington, June 29.—Crumpacker
...of Indiana yesterday introduced in the
...house a resolution for a constitutional
...amendment providing that hereafter no
...non-contiguous territory shall be an-
...nexed to the United States except in
...pursuance of a treaty negotiated by the

...and to take its place there will be a
...small migration of unemployed men to

...Debs will remain in the east and he and
...his associates will devote themselves
...to the cause of socialism through this

Spring Will Not Let the Milwaukee Benton Harbor & Columbus Go By.

AND WILL GET A BONUS.

President Taylor Has Not Refused to Ratify the Bonds Voted to Raise the Money.

The unavailability of the Palladium has demonstrated last night when it published an article stating that President Taylor of the village of Berrien Springs "refused to sign the \$30,000 bonds which the citizens were desirous of giving to the Milwaukee, Benton Harbor & Columbus railway if they could run their line through that village." This statement is true with the exception that President Taylor has refused to sign the bonds and that the \$30,000 only \$10,000 was intended for the M. B. H. & C., the remaining \$20,000, it was calculated, should be used in the construction of a road across the St. Joseph river.

Thomas L. Wilkinson, of St. Joseph, president of the Berrien Springs Power Co., was seen by THE LEADER this morning. He said that to-day he had received advice from Berrien Springs that Mr. Taylor had not signed the bond, and that at a meeting of the village board last night the unanimous opinion of the members that the bonds should be sold and the \$10,000 delivered to the railway company. Berrien Springs wants the railroad and there has never been any disposition on the part of the village board to prevent the building of the line here by withholding the \$10,000 bonus," said Wilkinson. "Mr. Taylor," Mr. Wilkinson added, "was inclined to refuse of the railway company that it furnish the city a guaranty that it could operate the road until the bonds were all paid. Berrien Springs' experience with railroads has been rather bad and Mr. Taylor was disposed to prevent a repetition of history if possible. He has not been censured in the course he has taken. The citizens understood that he was seeking to protect the village against what he considered was a possible danger. No one doubted that he would sign the bonds when the time arrived and he will." Berrien Springs has too many wise men included in her population to throw away an opportunity to get a railroad when no more than \$10,000 is in consideration.

ST. JOSEPH.

A cement walk is being built around the garden. The yacht Laura B. took some parties on the lake yesterday. Dr. Swendener is building an addition to her home on Main street. Florence Sanger is employed in Mollison & Freitag's grocery store. Friday Wallace, after the operation yesterday afternoon, is much better. The street car company received some new switches on the boat this morning. The band stand is now fixed so that the players can enter from the outside. Mrs. Sheenbeck, whose son is captain of the Sir Arthur, is seriously sick. Her recovery seems to be doubtful. May Graham took a happy party from Benton Harbor up the river yesterday. Mrs. E. A. Graham was a passenger. The merry-go-round, which has been here for a number of years, is at the corner of Ship and Main streets getting ready for the celebration. John Habel and Hank Genthner had a "mix up" Sunday in which the former came out victorious. Genthner prides himself on his ability as a prize-fighter and consequently accepted his defeat with grace.

The St. Joseph barbers maintain that they are not operating their shops on Sunday; that they have obeyed every provision of the agreement entered into with the Benton Harbor barbers and criticism of them is therefore unnecessary. A good crowd was entertained at the Baker Stock Co. last night. All parts were exceptionally well performed and judging from the loud and continued applause the audience was pleased. It is certainly a fine company.

The horses on Barnes & Brown's ice wagon ran away at the foot of the slide leading to the Graham dock yesterday. They were going towards the C. & N. W. depot the wagon got caught on telegraph pole and stopped the team. No great damage was done.

Rev. R. H. Bready and son Russell came here last night. Mr. Bready from Grand Rapids and Russell from Albion. Mr. Bready officiates at the Caldwell-Innell wedding and Russell stands up for the groom, Mr. Pinnell, who also came yesterday from Erie, Penn.
